**FOR IMMEDIATE RELEASE**

## **11<sup>th</sup> Annual Cade Prize Announces Winning Innovations from Inventors and Entrepreneurs in Alabama, Florida, and Georgia**

Gainesville, FL October 1, 2020 – The Cade Museum for Creativity and Invention is proud to announce the 2020 First Place Cade Prize Winner – **Nutrivert** for its Nutrivert Antibiotic Replacement. Congratulations to added Cade Prize Winners: Second Place Winner – **Redhill Scientific** for its Thin Film Plasma Reactors, Third Place Winner – **Adaptive Neural Systems Laboratory** for its Neural-Enabled Prosthetic Hand System, Fourth Place Winner – **Covanos** for its C-HEART, and Fifth Place Winner – **Structured Monitoring Products** for its VetGuardian.

These five Cade Prize Winners share \$50,000 in Prizes and each winner also receives \$2,000 of in-kind legal services.

“We were inspired by the high-caliber of innovative Cade Prize submissions. It is thrilling to see such important innovation happening throughout the region, and we are honored to identify and celebrate innovation with the Cade Prize,” said Richard Miles, co-founder of the Cade Museum for Creativity and Invention. “We want to thank our esteemed panel of judges from Alabama, Florida and Georgia,” Miles added.

The Cade Prize Awards Ceremony was hosted virtually on September 30<sup>th</sup> from the Cade Museum in Gainesville, Florida. The featured speaker was Chad Corbitt whose Tutor Matching Service won the inaugural Cade Prize over a decade ago, and is now in 500+ schools in 10 countries and enjoys a newly signed partnership with Amazon.

This year, the Cade Prize was expanded beyond Florida to also include Alabama and Georgia. The five Cade Prize winners were selected from 21 Fibonacci\* Finalists, comprised of entries from independent groups and research universities throughout Alabama, Florida, and Georgia.

Alabama Fibonacci Finalists (in alphabetical order) were:

<b>Company Name</b>	<b>Innovation/Invention</b>
AI Metrics LLC	AI Metrics
MADE Health and Fitness LLC	My MADE App
Nutrivert	Nutrivert
OncoSpherix	Small molecule dual HIF 1 and 2 inhibitors

904 South Main Street  
 Gainesville, FL 32601

Florida Fibonacci Finalists (in alphabetical order) were

Company Name	Innovation/Invention
Adaptive Neural Systems Laboratory	Neural-Enabled Prosthetic Hand System
Agriculture Intelligence	Agroview
Aviana Molecular Technologies, LLC	Digital Biosensing Platform with Artificial Intelligence
BIUWAVE LLC	Hybrid Biometric Underwater Vehicle
Cognosetta, Inc.	CS0022-class compounds for the treatment of tinnitus
Connected Wise LLC	Smart Vision V2X System
Engineering Technologies, LLC	The Platypus
Lightguard	Lightguard
MARVLOUS	Multimedia Augmented Reality Vocabulary Learning (MARVL) application
Nhu Energy	Advanced Systems for Clean Energy Transformation (ASCEnT)
PQSecure Tech	Suite-Q
Redhill Scientific	Thin Film Plasma Reactors
Stentiford Safety Services	Sten Step
Structured Monitoring Products	VetGuardian

Georgia Fibonacci Finalists (in alphabetical order) were:

Company Name	Innovation/Invention
COMB	COMB
Covanos	C-HEART
Precision MedCare, LLC	Noninvasive Precision Detection of Liver Fibrosis

The Cade Prize celebrates pre-seed and seed stage innovations and has been an important part of the journey to market for past Finalists and Winners.

The Cade Prize thanks Scott Mackenzie, Cade Prize Awards Ceremony Chair, Presenting Media Sponsor *Florida Trend Magazine*, and added sponsors, the Community Foundation of North Central Florida, COX Communications, *Gainesville Sun* and Saliwanchik, Lloyd & Eisenschenk (SLE Patents).

### About the Cade Museum

In 2004, Dr. James Robert Cade and his family began work on the Cade Museum for Creativity & Invention in Gainesville, Florida. The Cade's mission is to transform communities by inspiring and equipping future inventors, entrepreneurs, and visionaries. Dr. Cade, a physician and professor of medicine at the University of Florida, was best known as the leader of the team that invented Gatorade in 1965. The Cade Museum is located at 811 South Main Street, Gainesville, FL 32601. An independent 501(c)(3) public foundation, the museum receives no operational funding from federal, state, or local governments, or the University of Florida. Visit [CadeMuseum.org](http://CadeMuseum.org) for more information.

*\*In mathematics, the Fibonacci numbers, form a [sequence](#) called the Fibonacci sequence, such that each number is the sum of the two preceding ones, starting from 0 and 1. Fibonacci numbers are strongly related to the [golden ratio](#), a proportion commonly used in classical architecture and in the design of the Cade Museum.*
